

The **sfheaders** package

Maurizio Loreti*

1997/09/25

This style file (for L^AT_EX 2_ε) borrows some definitions from the standard **article/report/book** classes; and modifies them in order to print the part¹, chapter¹, section, subsection ... headers with the Sans-Serif variant of the current font.

*loreti@padova.infn.it, <http://wwwcdf.pd.infn.it/~loreti/mlo.html>

¹Some standard classes do not have these headers
