

# The **overcite** package<sup>\*</sup>

Compressed, sorted lists  
of superscript numerical citations

Donald Arseneau

2003/05/27

This package is provided for compatibility with the original `overcite.sty`.  
All it does is invoke `cite.sty` with the option `[superscript]`.

It would be a shame to lose this pun.

---

<sup>\*</sup>This manual corresponds to `overcite v4.0`, dated 2003/05/27.
